Peace Notes.

In a new note to Great Britain, the French government invites the British ambassador in Berlin to support French representations to Germany that the movement of troops organized to penetrate into Silesia must stop.

The first real operation of war during the Polish insurrection in Upper Silesia came recently when Germans attacked in the Grostelter Forest, according to a dispatch to the London Times from Rathbor.

The situation in Upper Silesia is becoming worse, and the Polish bands are developing strong bolshevist tendencies, according to official advices received by the British foreign office. The Polish insurgents are defying Adelbert Korfanty's orders to withdraw eastward from the territory they had occupied.

Lloyd George will break up the entente if he continues in power, or, perhaps, I ought to say he will if he remains in power and continues his present tactics," Stephen Lauzanne, editor of Le Matin, declared to a correspondent in Paris recently.

Great Britain, through her charge d'affaires at Paris, formally proposed to the French government an early meeting of the allied supreme council, to which an American representative would be invited, it was announced. Premier Briand said he favored such a meeting.

The instructions forwarded to Ambassador Harvey at London for his participation in the sessions of the supreme council as the personal representative of President Harding, it was said in Washington, are that he shall act only as an observer so far as the Silesian question is concerned.

The German ambassador, Dr. Wilhelm Mayer, called on Premier Briand and informed the premier that the Berlin cabinet accepted unreservedly all the conditions contained in the note of the inter-allied military control commission concerning the execution of the aerial clauses of the Versailles treaty.

Mr. Lloyd George, the prime minister, has issued a statement reiterating the British attitude towards the Upper Silesian question expressed by him in his recent speech in the house of commons, and disclaiming responsibility for the "distorted reports in the French newspapers."

Washington.

A definite statement outlining the conditions upon which the United States would extend recognition to the Oregon government of Mexico has been prepared for submission to President Obregon. This statement, in the form of a memorandum, it was said, will be delivered to Obregon by George T. Summerlin, counselor of the American embassy at the City of Mexico.

Damage to fruit crops from freeze in some sections of the country has not resulted in a general shortage, the department of agriculture said recently. Georgia peaches and California cherries already are flowing to the markets, while the strawberry crop was said to be abundant in several places.

After conferring for several hours with representatives of the marine engineers and radio operators involved in the marine wage controversy, Secretary Davis adjourned the session without announcing what progress had been made toward a settlement of the dispute.

A cloudburst struck Grangeville, Id., recently and the main streets were under thirty feet of water. One man, P. M. Glanville, owner of the Glanville pharmacy, is known to have lost his life.

Senator Lodge, in a letter read at a Boston mass meeting in which reduction of armaments by international agreement was endorsed, said that President Harding "has this matter very much at heart and I am sure you may trust in his doing all that he can to forward it."

If congress finishes up its work by the first of August, President Harding will favorably consider a trip to the Pacific Coast and perhaps to Alaska, he informed a committee of Pacific Coast representatives who called on him with an invitation.

Between fifty and sixty head of purebred Hereford cattle were burned to death at Audubon, Ia., the other night in a fire, believed to have been the work of incendiaries, which destroyed the sale pavilion and cattle barns at the fair grounds.

CALLS A GERMAN HALT IN SILESIA

Premier Briand Confers With
Berlin Representative at
Paris on Matter.

ALLIES THREATEN REPRISALS

Unless Aggressions Cease at Once,
Entente Will Act, Dr. Mayer
Was Told in Conference.

Paris.—Premier Briand received the German ambassador, Dr. Mayer, recently, and conferred with him on the Silesian situation. It is understood that he requested the ambassador to ask the German government to end definitely all attempts at aggression in Silesia if Germany did not want to be exposed to reprisals by the allies.

A similar request was made to Dr. Sthamer, the German ambassador at London.

Previous to summoning Dr. Mayer, M. Briand conferred with M. Berthelot, his principal collaborator, in the foreign office, and considered particularly a telegram from General Le Rond, head of the commission at Oppeln, reporting the cessation of German attacks as a consequence of collective action by the allied commissioners.

Believes Direct Action Necessary.
This, while satisfactory, was not, in the opinion of M. Briand, sufficient. He was convinced that it would be necessary for the allies to intervene directly with the Berlin government.

When Dr. Mayer left he carried a note or memorandum in his hand. M. Briand then went to Elysee palace and conferred with President Millerand.

The Subject to Cabinet Today.
Silesia will be the principal subject at the cabinet meeting and also will dominate the debate in the chamber of deputies, where the premier, after hearing interpellators on the subject, will make a statement explaining his action.

London.—Protestation by high officials that the four battalions of British troops ordered to Upper Silesia by the British government are merely replacements cannot cloak the seriousness of the situation and the real significance of this movement.

Viewed as German Allies.

While it is given out that the forces may not expect to see any action, and that their purpose is merely to constitute a moral influence on Korfanty's irregulars, it goes without saying that they will be received by Germany and viewed by France as allies of the Germans against Poland.
There will be no action, certainly, unless the Poles stage an attack. But such an attack may bring about something approaching real warfare.

EGYPTIAN MOB KILLS FIVE

Many Others Were Wounded Before
The Police Quelled the Disturbances at Alexandria.

London.—Many persons are reported to have been killed in an outbreak in Alexandria, Egypt, where natives attacked Europeans, says a Reuters dispatch from that city.

British troops have arrived and taken charge of the town.

The outbreak arose from the killing of a native by a Greek, which led to attacks by the natives and students on Greeks and other Europeans. Ambulances were busy all night taking the wounded to hospitals. Many fires were started and in one district it was reported that people were burned alive.

Mobs in the night smashed windows for hours, and this morning all business establishments are closed.

Before the arrival of the soldiers this morning Europeans had gathered at the government office, demanding protection.

SOVIET TURNS DOWN JAPAN

W. B. Vanderlip Declares That
Russians Refused to Trade for the
Release of Vladivostok.

Reval.—Japan attempted to arrange with the soviet government of Russia for the granting to the Japanese of the control of Kamchatka in return for the evacuation of the Vladivostok territory, but was refused by M. Chitcherin, the soviet foreign minister, according to Washington B. Vanderlip, representative of American interests engaged in obtaining concessions from the Russian government.

Chitcherin's reply to Japan's proposals, said Mr. Vanderlip, was: "You will evacuate Vladivostok, but you will never possess Kamchatka."

The Allies Move for Peace.

Paris.—The allied high commission in Upper Silesia has sent delegations to intervene with both the Germans and the Poles and endeavor to obtain the cessation of all military operations in that territory, according to French official dispatches.

Mrs. Morgan had a colored maid named Sarah. One Sunday afternoon the mistress saw Sarah's lover leaving the house clad in a suit of white dannel. A little later, when the maid appeared, her mistress said:
"Sarah, that beau of yours should never wear white. He is so black that white clothes makes him appear all the blacker. Why don't you give him a hint?"

"Why, Mis' Morgan," said Sarah, with animation, "I done give him lots ob hints, but he jes' natterly ain't got no sense an' didn't take 'em."
"Probably you didn't make the hints strong enough," said the mistress.
"Well, no'm, dat's jes' what I think myself," agreed Sarah, reflectively; "I don't believe I did. I jes' looks at him right hard, an' I says, 'Niggah, yo' sho' do look like a black snake crawlin' out ob cream, you do! The's jes' all I says to him, Mis' Morgan. Dat's all."

Amount of Rouge This Damsel Would

Carried in Stock.

The drug store was quite near the dancing hall; but the druggist was not a dancer, and had been in bed many hours when he was awakened by the violent ringing of his night bell.

With sleepy words of complaint he pulled himself from his warm bed.
"Mine's not to reason why, or some poor soul may do a guy," he murmured philosophically.

Throwing up his bedroom window he allowed the first cold gust of wind to rush past him, then put his head out.

Below he saw a young lady.

"What can I do for you, miss?" he inquired. "Is anyone dying?"

"Oh, no!" came back in sweet tones.

"But I'm dancing at the hall close by, and I have quite run out of rouge."

"Indeed!" snorted the disgusted chemist. "I am very sorry, miss, but I never keep enough rouge in stock to cover a cheek like yours!"

Then he banged the window down and returned to bed.—Chicago Daily News.
